Find the following words:

- Rain Barrel
- Ocean
- Rain Fall
- Creek
- Lake
- River
- Stream
- Weather
- Drought
- Flood
- Ice
- Irrigation
- Plants

The Water Cycle
 Use the words below to fill
 in the blanks.

- A. Condensation
- B. Sleet
- C. Run-off Water
- D. Water Vapor
- E. Sun
- F. Hail
- G. The Water Cycle
- H. Snow
- I. Transpiration
- J. Precipitation
- K. Infiltration
- L. Rain

1 The water cycle is controlled by the _____ because it produces heat.

2 Heat from the sun turns liquid into gas called _____. This process is called _____.

3 Water vapor forms clouds and as the molecules cool down they turn back into liquid water in a process called _____.

4 As the liquid water gets heavy in the sky we experience rain on earth, which is also called _____.

5 Precipitation can fall in the form of _____, _____ or _____.

6 As water seeps its way back into the earth's soil we call is _____.

7 Some of the water doesn't get absorbed. We call this extra water _____.

8 Now that the water is back on earth _____ begins again!

Answers:
 1. E
 2. D, I
 3. A
 4. J
 5. B, F, H, L
 6. K
 7. C
 8. G
